

REGROW MORE OF YOUR OWN HAIR OR YOUR MONEY BACK... GUARANTEED

BE VERY WEARY ABOUT WHAT YOU HEAR AND SEE!!

SOME SO CALLED 'HAIR TREATMENT' ORGANISATIONS HAVE PROMOTIONS SHOWING 'A BALDING HEAD' CONVERTED TO 'A FULL HEAD OF HAIR.' THESE ARE ACTUAL WIGS OR HAIRPIECES AND HAS BEEN DOCUMENTED ON TODAY TONIGHT AND A CURRENT AFFAIR!

Do lasers, high frequency machines and massages block the balding gene (DHT)? NO!

'Wigs' are a 'last resort' for very bald people with no hope of re-growth &/or transplants.

Before signing contracts, ask a lot of questions and ensure that:

- You are not buying wigs disguised as hair treatments.
- You take home copies of photographs of all the bald or balding areas of your scalp to make progressive comparisons.
- Are you consulting a doctor at your initial visit to so called Medical Hair Centers?
- Are Lasers and High Frequency machines medically approved as a DHT blocker?
- Ask for proof of accuracy of Mineral Hair Analysis and are they medically approved? (To check their authenticity, do not forget to provide them with 2 sets of samples of your own hair with 2 different names- the results will amaze you)
- Are frequent visits, enabling them to keep a grip on you and your money necessary? Though cosmetic products are useless and unnecessary and not treatments for 'Hair Regrowth', is the ongoing recurring expenditure necessary?
- Obtain a 'Full Money back Guarantee' in writing, in case of failure
- At your initial consultation, they must specify exact period of the treatment, all the associated products and total cost of the program.
- Is it a life time commitment? And if so, what is the approximate future expenditure?

As a 'precaution' and with the intention of helping you, the above is for your information and necessary action.

Please remember, the DHT affected hair roots should die within 4 years. Therefore, it is extremely important from the very beginning you treat your hair loss with the most effective treatment to block the balding gene 'DHT'. What can be better than our 'money back guarantee' Hair Re-growth Program?

My Name is Sam Cohen, hair loss and hair replacement specialist for more than 36 years. Using prescribed topical and oral pharmaceutical products, natural extracts and herbal preparations, I have helped thousands of men, women and children with "genetic baldness" re-grow their own natural hair back. I have solved

many hair and scalp problems, such as, itchy scalp, dry or oily hair, innovated and custom designed the most versatile and natural looking hairpieces, improved hair implantation procedures and advised and consulted on all types of hair transplants.

With my knowledge and practical experience, I can also achieve great results for you, provided you act soon. **An important part of their guarantee is that you attend their premises on a regular basis to enable them to keep a grip on you and your money.** Not so with IHRB, you pay far less and it can be conducted in the privacy, convenience and comfort of your own home. Further, those who do not or are not able to visit our clinic, need not worry. We will send you a questionnaire with all the relevant information and instructions explaining the cause and how the treatment works for you to do it at home.

Free ongoing advice for 25 years is also included with all our programs.

Wigs, Hairpieces, Toupees: is seen and considered to be a big turnover, therefore, most organisations confuse prospective clients by disguising them with various names, such as, "Non Surgical Hair Replacements", "Medic Hair", "Hair Again", "Derma Hair" etc.

Hair Analysis: Please be informed that the majority of baldness occurs "Genetically", yet some clinics will claim that if a persons minerals, toxicity, stress factors, etc, can be corrected and balanced, hair regrowth will take place and charge considerable sums for an analysis, enabling them to sell minerals and vitamins.

There is NO CURE for "genetic baldness". The "balding Gene" (DHT) can be blocked with a combination of our various "state of the art" prescribed medications and topical solutions, herbs, natural extracts, good hygiene products, etc, enabling regrowth to re-commence and continue with a little "maintenance".

Cost: Try to enquire prices of programs from most organisations on the telephone? You will rarely receive a direct reply. If you have tried or are currently trying treatments without success or feel you are paying too much, then you MUST check out our hair treatment program that offers "guaranteed results or your money back".

If you are interested in "Hair Regrowth", "Hair Transplants", "Hair Implants" or "Hairpieces", you will certainly benefit by talking to us. We look forward to speaking to you soon.

ONCE DEAD, THOSE HAIR ROOTS CAN NOT BE RE-GROWN. THEREFORE DON'T EXPERIMENT WITH UNPROVEN TREATMENTS.

Dear Sam,

After years of 'balding' I gave up hope until I came across your advertisements showing amazing transformations along with their testimonials. I was skeptical, but I gave it a go and never regretted it. Dramatically my hair became thicker with new regrowth within 8 months. My only regret is that I didn't start your program earlier. I will not hesitate to recommend your treatment program to every man, woman or child with hair loss.

Sincerely, Jason Crone

Sam,

Just to let you know that I am very happy with the progress in just over 5 months.

Sincerely, John - Sydney Police Officer

Hi Sam,

Thank you for your treatment. I get lots of comments about looking younger and healthier from family & friends who haven't seen me for a while. Coming back from my Christmas break, I showed my colleagues and friends my first photos of balding and told them that all the re-growth was my own natural hair achieved with IHRB's fantastic 'Money Back Guaranteed Hair Re-growth Program'.

Buddy Nagi - General Manager Operations - Nagi Corporate Transport

Dear Sam,

The first time I came to see you I found it hard to believe it was possible. After only 6 months my hair has improved so much with more body than before and my regrowth at this time is a great improvement from the bald patches I had. My hairdresser is so amazed with the improvement that she is telling everybody about you. Thanks again Sam!

Sincerely, Gillian Drew

Dear Sam Cohen,
In October 2002, after informing me that I was going 'bald', I immediately I took your advice. I, myself was noticing that I was going 'bald', but was too embarrassed to do anything about it. Since using your amazing product, my family and friends have noticed my hair becoming denser, allowing me to grow my hair longer. My girlfriend is really impressed with the results. Sam, I am so happy to have met you and you helping me. You are 'MAGIC'. I will continue to send my friends to you to help them also. Thank you very much Sam and your 'MAGIC'. As a follow up I am proud to 'endorse' your product and let the know that with a little maintenance, after all these years, I have kept all my re-grown hair to date and would recommend your "money back guarantee hair re-growth program" to every male or female with 'thinning hair' or 'going bald'.
Thanks again. One of your very happy and satisfied customers. **Kevin McGuinness**

Sam Cohen Hair Treatment March 28, 02.
I have tried many 'hair treatments' over the last 3 years, including Minoxidil and Chinese herbal remedies. But, none of these helped my hair loss. Since using your hair re-growth treatment over the last 3 months, I am astounded at the amount of hair re-growth that is evident not only to me but also to others including my DOCTOR whom I've been seeing for many years I recommend Sam's product to anyone who like me thought they were destined for a life of ever increasing 'baldness'. Thank you Sam

October 21, 09. I am extremely delighted to inform you that, with a little maintenance, even after 'Seven and a half' years later, all the re-grown hairs are still on my scalp and growing normally. Can't thank you enough. **Yours truly, Steve James.**

I can't believe my hair is growing back! Obviously noticing more hair on my head, people are asking me how? I was on my way to being as bald as my old father. I was getting very upset looking in the mirror. My confidence was diminishing. I felt desperate. was a bit skeptical with all these different advertisements claiming to grow your hair back. I was very impressed with Sam's long list of happy customers of all who have re-grown their own hair back. It's easy, you do not have to change your lifestyle. No regular visits. The treatment is performed in the comfort of your own home. My hair is a lot thicker, and I look and feel younger as well. It is a pleasure to deal with Sam. It's like visiting an old friend. Even the staff are friendly. They make your dream of re-growing your hair a reality. I would strongly recommend anyone with hair loss to contact IHRB, sooner than later. Never the less I am thrilled with the outcome! **Yianni Zinonos**

Dear Sam, 22 March 2007
I just had to thank you so much. In just 4 months my hair is so much thicker- it is something I never thought would happen at my age of 76 years. I have been depressed for years over the state of my hair- or lack of it! - which was becoming progressively worse. The hair loss each day was awful, as a result of which I did not like going out and socializing because I felt very self conscious. Now I feel much more confident and all my family and friends are amazed at the difference which has occurred in such a short time. And is all down to you Sam and your marvellous course of treatment. You have changed my life completely and I would thoroughly recommend IHRB to anyone going through the trauma of hair loss. Once again thank you Sam for all your dedication to people like me.

October 20, 2009. I am very pleased to inform you that I am now 79 years old and with a little maintenance, even 3 years later, all my re-grown hairs are still there on my scalp.

Yours very sincerely Daphne E Monk
