

MORE HAIR OR YOUR MONEY BACK... GUARANTEED

As seen on TV and heard on Radio

My Name is Sam Cohen, hair loss and hair replacement specialist for more than 35 years.

Using prescribed topical and oral pharmaceutical products, natural extracts and herbal preparations, I have helped thousands of men, women and children with "genetic baldness" re-grow their own natural hair back. Solved many hair and scalp problems, such as, itchy scalp, dry or oily hair, etc. Innovated and custom designed the most versatile and natural looking "hairpieces", improved "hair implantation" procedures and advised and consulted on all types of "hair transplants". With my knowledge and practical experience, I can also achieve great results for you, provided you act soon, because the DHT affected dormant hair roots will die within 4 years.

Even though 'cosmetic products' are generally not treatments for 'Hair Re-growth', most organisations will have you spending thousands of dollars with recurring cost for these ineffective and unnecessary cosmetic products, office treatments, mineral hair analysis, lasers, etc. An important part of their guarantee is that you attend their premises on a regular basis to enable them to keep a grip on you and your money. Not so with IHRB, you pay far less and it can be conducted in the privacy, convenience and comfort of your own home. Further, those who do not or are not able to visit our clinic, need not worry. We will send you a questionnaire with all the relevant information and instructions explaining the cause and how the treatment works. Free ongoing advice is also included with all our programs.

Medical Hair centres: when we visit Medical Centres, we consult Doctors. Therefore, please ask if you are talking to a doctor at your first point of contact when visiting so called Medical Hair Centres.

Wigs, Hairpieces, Toupees: is a big turnoff, therefore, most organisations confuse prospective clients by calling them "Non Surgical Hair Replacements" with words such as, "Medic Hair", "Hair Again", "Hair Fusion", "Derma Hair", "Strand by Strand", etc. These types of hair replacements are definitely appropriate for extremely BALD people with no hope of hair regrowth or hair transplants. Do not let them sell you Wigs/Hairpieces disguised as 'Hair Treatments'.

Mineral Hair Analysis: Please be informed that the majority of baldness occurs "Genetically", yet, some clinics will claim that, if a persons minerals, toxicity, stress factors, etc, can be corrected and balanced, hair regrowth will take place and charge considerable sums for an analysis, enabling them to sell minerals and vitamins. To check the authenticity of these analyses provide them with 2 (two) sets of samples from your own hair with 2 different names - the results will amaze you! There is NO CURE for "genetic baldness". The "balding Gene" (DHT) can be blocked with a combination of our various "state of the art" prescribed medications and topical solutions, herbs, natural extracts, good hygiene products, etc, enabling regrowth to re-commence and continue with a little "maintenance".

Cost: Try to enquire prices of programs from most organisations on the telephone? You will rarely receive a direct reply. However, if a price and length of time of the program is offered, please question whether it is the only "money back guaranteed" cost and duration, without any recurring expenditure throughout the life of the program? Please also insist on taking home copies of photographs of your scalp for later comparisons.

Lasers and High Frequency Machines (Office treatments): Are these devices medically approved for "Hair Regrowth"? They DO NOT BLOCK the balding Gene (DHT).

Guarantees: Is it in writing and not in small print that is difficult to adhere to? Such as continuous visits to their clinics, never ending purchase of various unnecessary and ineffective cosmetic products, strict and lengthy routines, regimes, etc?

If you have tried or are currently trying treatments without success or feel you are paying too much, then you MUST check out our hair treatment program that offers "guaranteed results or your money back".

If you are interested in "Hair Regrowth", "Hair Transplants", "Hair Implants" or "Hairpieces", you will certainly benefit by talking to us. We look forward to speaking to you soon.

- Do lasers block the balding gene? (DHT)? **NO!**
- Do high frequency machines or office treatments block the balding gene (DHT)? **NO!**
- Will massages or minerals and vitamins do the trick? **NO!**
- Can they guarantee that any of the above will block the balding gene (DHT) and re-grow your hair or your money back? **NO!**

Well we can! GUARANTEED!

Dear Sam:
I Mahmoud Muhanna, I lost a lot of hair. I started Sam's (IHRB) treatment. I am sure no one can believe how I look now, I look completely different and more younger. I'm very happy and would not hesitate to recommend his very effective and guaranteed Hair Re-growth treatment to anybody who has doubts about the treatments' success. Thank you Sam, Mahmoud Muhanna

Hi Sam,
Hope you well. I am just sending a quick email to say THANK YOU for putting me on to your products. I got lots of comments from friends and family who haven't seen me in a while that I look younger and healthier. Colleagues at work and close friends did not say anything to me whilst I was going bald they just excepted me as I was. It wasn't until I came back from Christmas break that I showed people at work and friends the photos you took of my hair when we first met on august the 26th and their reply was wow Buddy how did you do that, there is a big difference and I say to them that it's all my natural hair, no implants or operations just natural, all I did was use IHRB's hygiene products and apply their prescribed 'Tropical Solution', take their prescription and herb tablets and no side affects which is fantastic. I was a little sceptical when I first met you but you made me feel as if there was no pressure to buy your products and when I saw some of the pictures of well known footballers and some of your other clients I pressured myself into wanting hair again. I am so glad I was able to afford it at the time because now I saw for myself what your products did for me in such a short period of time. Your products have re-grown my hair and made my scalp so much healthier and I feel my hair still coming through. So thank you once again Sam. Your best buddy now... buddy Nagi

Dear Sam,
I am writing to thank you and let you know that in the time that I have been on the IHRB program I have now totally regrown all of my hair. I had great doubts at first after having no hair for so long that your treatment would work. I had been told by many different Doctors that there was no cure for Alopecia Universalis but yet they recommended all these most unpleasant treatments which I tried and tried but they all failed. Six years has been a long time back and forth to Doctors with the same answers, "We do not know why this happens but try this, try this". None of them worked. My own doctor told me to be careful and not to 'waste' my money when I told him that I was wanting to start your program, yet he was still willing to support me with my decision to start as this was going to be my last try. I was ready to go and spend a lot of money to buy a proper wig as I resorted to the fact that this was how it would be for the rest of my life. He is now amazed that it has worked, as I am to. I am so glad that I saw your advertisement in the newspaper and took the chance to see you and try your treatment programme. What more can I say, the proof is there. I thank you once again.
Maree Van Harskamp.
